

QashqAI Voice - Global Registration Request

To Whom It May Concern,

I, Siefollah Aslani, respectfully submit this formal request for the recognition and registration of my global multilingual AI-based initiative:

QashqAI Voice - The Intelligent Voice of Siefollah Aslani

This project stands as a voice for justice, accessibility, and cultural preservation, with a special focus on marginalized populations, including disabled persons, ethnic minorities, and displaced individuals. It has been recognized by OpenAI through direct support and responses, and has already been published and indexed on platforms such as Medium, Substack, and Notion.

Moreover, a public GPT model has been launched, demonstrating the real-world application of this platform in over five languages, designed to empower vulnerable communities.

The aim of this document is to:

1. Confirm intellectual authorship of the QashqAI Voice platform under my name.
2. Request formal international recognition under WIPO, UNESCO, and EUIPO.
3. Seek assistance in ensuring legal protection and cultural archiving for this volunteer-based, non-commercial initiative.

Attached below are the public links:

- GPT Link: <https://chat.openai.com/g/g-68438a7569088191a2ca2ce81d9971b8-qashqai-voice>

- Substack: <https://siefollahaslani.substack.com>

- Medium: <https://medium.com/@siefi.aslani>

Thank you for your consideration and support.

Sincerely,

Siefollah Aslani
