Description:

QashqAI Voice is the world's first multilingual AI system designed by and for marginalized communities. Created by Siefollah Aslani, a disabled cultural activist from Haftkel, Iran living in Bremen, Germany, the system empowers rural voices and endangered languages through GPT, TTS, Whisper, and AI storytelling. Recognized by OpenAI Support in 2025.

Submission Date: June 14, 2025

Nomination Status: Submitted

Confirmation: Awaiting response from OpenAI GPT Store
